PROFESSIONAL SUMMARY

Enthusiastic MCA student with exposure to software development and database concepts through academic projects and coursework. Seeking internship opportunities in Software Development, Database Development, and Full-Stack Development to apply technical knowledge, gain hands-on industry experience, and grow as a technology professional.

SKILLS

- **Programming Languages:** Java, C, JavaScript.
- **Web Technologies:** React, HTML, CSS.
- **Backend:** Node.js, Express.js
- **Databases:** MySQL, MongoDB.
- **Tools:** Basic GitHub, VS Code.
- **Core Concepts:** Object-Oriented Programming, REST API's, Data Structures & Algorithm
- **Soft Skills:** Communication, Teamwork, Adaptability

PROJECTS

Public Transport Management Platform - (PHP, JS, HTML/CSS)

- Developed a full-stack Transport Management System for route scheduling and ticket booking, streamlining transportation operations through efficient workflow automation.
- Implemented Role-Based Access Control (RBAC) for Admin, Driver, and Passenger modules, ensuring secure authentication and authorization.
- Designed MySQL databases, developed RESTful APIs, and integrated frontend-backend components to deliver a scalable, maintainable, and high-performance application.

Pixabay API - (React, JS, API)

- Built a responsive React.js application with Pixabay API integration to fetch and display real-time image data based on user search queries.
- Implemented asynchronous API communication and state management using React Hooks, ensuring efficient data handling and seamless user experience.
- Developed reusable UI components and optimized search functionality, improving application scalability, maintainability, and responsiveness across devices.

The Saviour - (MERN STACK)

- Developing a full-stack disaster response platform to connect affected users, volunteers, and administrators for real-time emergency assistance and coordination.
- Designing secure RBAC and RESTful API architecture to manage distress requests, volunteer assignments, and status tracking with structured data flow.
- Building responsive dashboards and scalable system architecture to enable reliable communication, accessibility, and efficient disaster management operations.

EDUCATION

BMS Institute of Technology and Management

Master of Computer Applications - (CGPA - 7.30)

Govindram Seksaria Science College

Bachelor of Computer Applications - (CGPA - 7.69)

GOVT. SSCA PU COLLEGE

Pre-University Course - 66.66%

Karnataka High School

SSLC - 78.72%

Bengaluru

2025 - 2027

Belagavi

2022 - 2025

Belagavi

2021 - 2022
